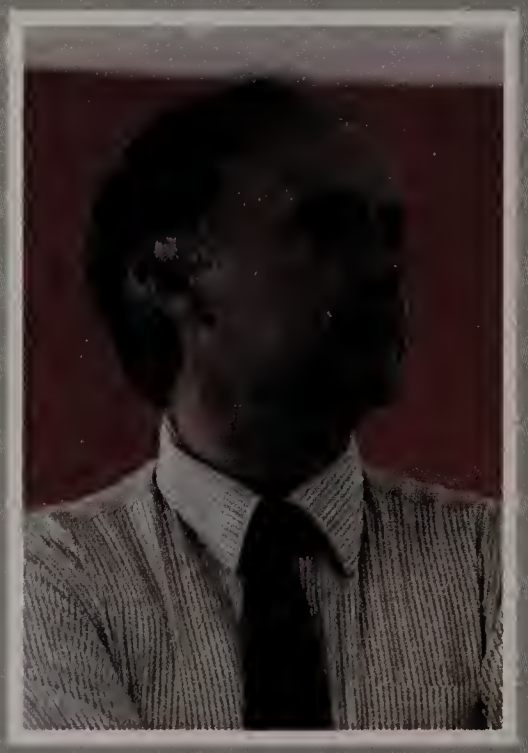
EXIT



This stuff is so boring.

Oh please, not another lap.

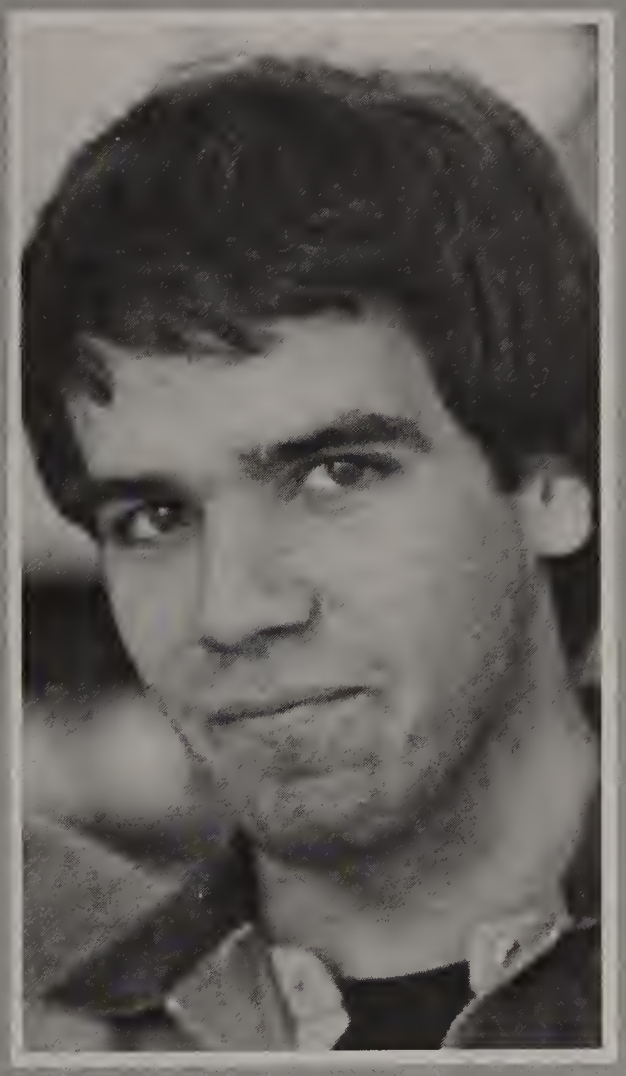
Wait, I know it's here somewhere.

What are you doing here with that camera?

Oh what a feelin'!

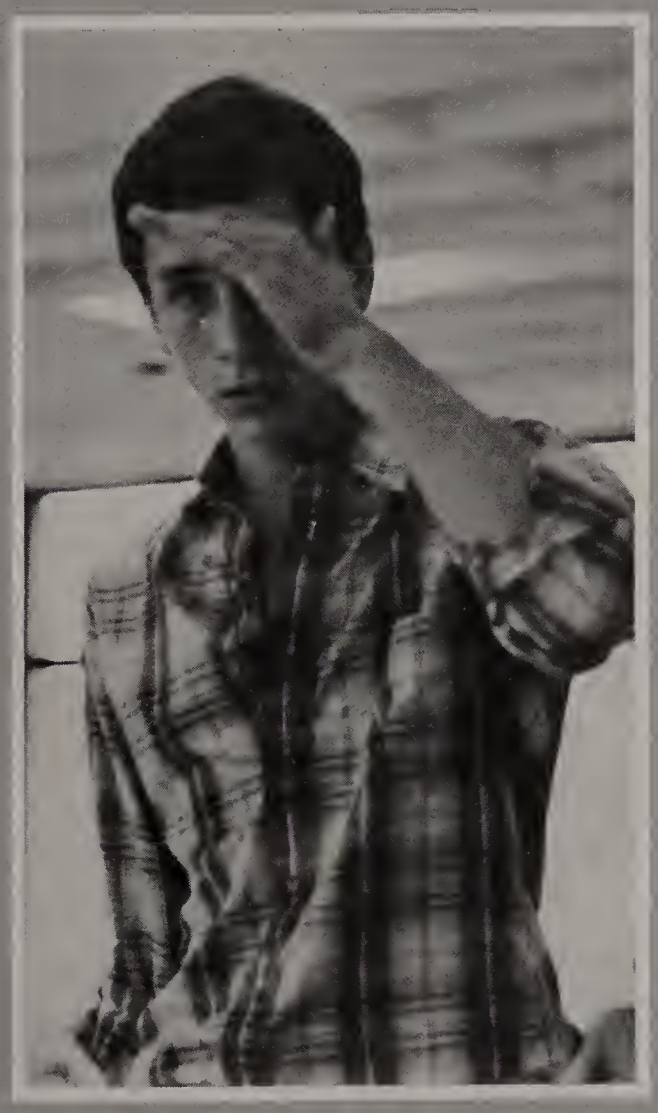
What is he talking about?

Hurry up I have to go to the bathroom.

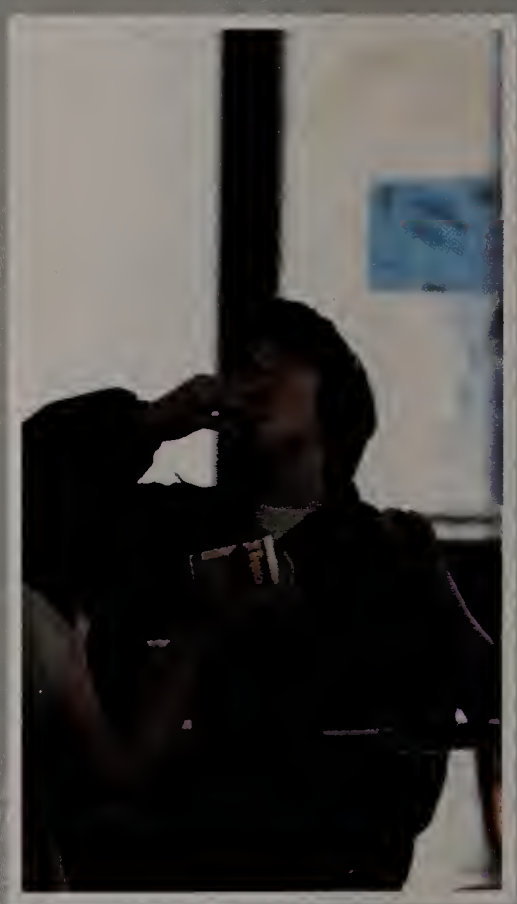


If only you knew what I was thinking.

Good party last night huh, Ross?



I hope Mr. Milbier doesn't see me.



DEDICATION

For her years of guidance, hours of assistance, and endless patience, we, the class of 1985, dedicate this yearbook to Mrs. Nancy Bradley.

In Loving Memory of Kristen Carmichael, May 7, 1967 - April 29, 1981

THE FRIEND WHO JUST STANDS BY
When trouble comes, your soul to try You love the friend who just "stands by" Perhaps there's nothing she can do The thing is strictly up to you. For there are troubles all your own and paths the soul must tread alone. Times when love can't smooth the road nor friendship lift the heavy load, but just to know you have a friend who will "stand by" until the end whose sympathy, through all, endures whose warm handclasp is always yours. It helps, someway, to pull you through, although there's nothing she can do. And so with fervent heart you cry, "God bless the friend who just stands by!"

B. Y. Williams

Kris faced her illness with strength and courage. A lot of her support came from you, her friends and classmates. We'll never forget the spontaneous standing ovation you gave her at your eighth grade graduation. You never let her think she was forgotten or apart from you with your calls, cards and visits. You supported her when she needed you the most. Even with this dedication, you prove how special you are. It's been three years since she was with you, but you choose to remember her. We are pleased to have this opportunity to express our appreciation to you. Thank you and best wishes for the future.

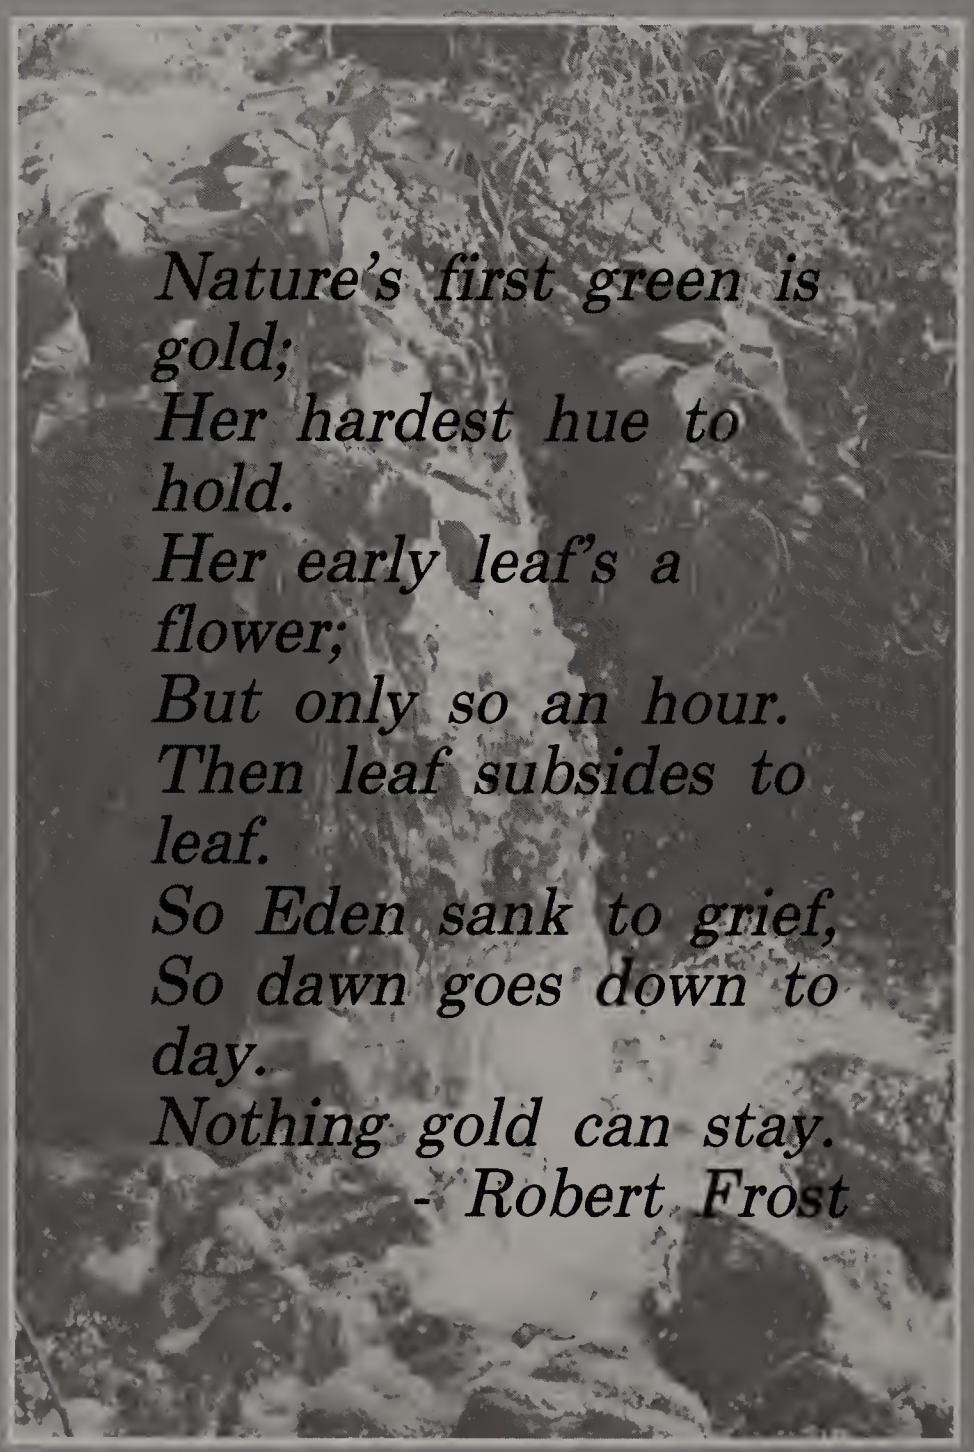
"The End"



Nature's first green is gold;
Her hardest hue to hold.
Her early leaf's a flower;
But only so an hour.
Then leaf subsides to leaf.
So Eden sank to grief,
So dawn goes down to day.
Nothing gold can stay.

Class History

Our four years at Nauset can best be described as transitional. The time from when we entered high school to our graduation was a period of intense changes for both our sense of individuality as people and our sense of unity as a class.

Freshman year began in September of '81. We entered high school frightened of the transition from the top of the heap to the bottom of the barrel. This was a year of many different situations for us: Proposition 2½ was taking its toll along economic lines, challenging courses were new along academic lines, and Friday night dances and basketball games became regular events along social lines. This was also a year when previously respected course titles such as Ancient History and Earth Science became interchangeable in peer conversation with such expressions as "played" or "beat".

Sophomore year '82 - '83 began with a new superintendent. We were no longer freshmen and our increased participation in student government reflected this. The new administration was introduced to the Class of '85 honorably. Our magazine drive made record - breaking earnings which later helped us to have very successful upperclass activities. The Halloween and Christmas dances were successful but were overshadowed by the two outstanding Drama productions, "Flowers for Algernon" and "West Side Story".

Junior year was certainly the most rewarding transition yet; we were upperclassmen! Courses became more difficult but the social rewards certainly made it well worth the extra effort. It was at this time that freshmen came to be viewed (conservatively of course) as a different species. The German Exchange Program brought Germans here but not Americans there, so many hopeful participants would have to wait until next year. April 27th brought Prom '84 - certainly *the* social event of the year, despite the success of the dances and the two plays, "You Can't Take it with you" and "Splendor in the Grass". We enthusiastically began June by decorating for Graduation '84 and by cramming for the College Boards. With the taste of these two life-preparatory events still fresh, we began the last calendar year of high school with the summer of '84.

We entered Senior year fittingly with many changes in the faculty. Although it was sad to see many teachers leave, it was good to see the changes, for it was obvious that the new faculty members had brought with them intelligence, experience, youth, wit and most especially, variety. Application deadlines for college crept up on us quickly, and soon it was January '85, a matter of months to graduation. The Senior Banquet on January 27th opened our graduation year fantastically. This year's German Exchange was truly the time of a lifetime for many, certainly worth the wait. Spring went by quickly with just three major events between us and graduation; the play "Bye Bye Birdie", the Jr. - Sr. Toga dance on March 15th, and the Prom '85 on May 4th. All events were more than what we ever expected.

It is obvious now that our graduation on June 2nd was the culmination of a multitude of transitions. The very fact that we survived them as friends and as classmates is a salute to the spirit of the Class of '85. It is for this reason that all members of the class of '85 should look back at Nauset proudly and look forward to life confidently.

Time in a Bottle
If I could save time in a bottle
The first thing that I'd like to do
Is to save every day 'till eternity passes away
Just to spend them with you.
If I could make days last forever,
If words could make wishes come true,
I'd save every day like a treasure and then, again,
I would spend them with you.
But there never seems to be enough time
To do the things that you want to do,
Once you find them.
I've looked around enough to know
That you're the one I want to go through time with.
If I had a box just for wishes
And dreams that had never come true,
The box would be empty -
Except for the memory of how they were answered by you . . .

-Jim Croce
